W 000	INITIAL COMMENTS A recertification survey was conducted from January 22, 2007 through January 25, 2007 utilizing the fundamental process. However, due to deficient practices observed during the survey, the survey was extended in Active Treatment. A random sample of two clients was selected from a residential population of four females with various degrees of mental retardation and other disabilities. The findings of the survey were based on observations at the group home and two day programs, interviews with staff and clients, and review of records, including incident reports. The outcome of the survey revealed the facility failed to be in compliance with the Condition of Participation in Active Treatment. NOTE: On November 20, 2006, two months ago, this office conducted a complaint investigation involving client and staff abuse. The investigation substantiated that the facility's governing body failed to provide adequate supervision and effective staff training to prevent client and staff abuse/ physical injuries. Based on the surveyors findings it was determined that the facility failed to comply with the condition of Active Treatment and an enforcement action was proposed. On December 29, 2006, the facility regained compliance by increasing their staff to client ration (two direct care staff per shift). Although the revised staff schedule was verified at the time of the investigation, this recertification survey revealed that the governing body failed to consistently ensure sufficient staffing to address client's behavior management needs and to ensure clients' safety. Any deficiency statement ending with an asterisk (*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.

W 104	Continued From page 2 client supervision and monitoring, and by failing to provide continuous active treatment services. On November 20, 2006, two months ago, this office conducted a complaint investigation involving client and staff abuse. The investigation substantiated that the facility's governing body failed to provide adequate supervision and effective staff training to prevent client and staff abuse/ physical injuries. Based on the surveyors findings it was determined that the facility failed to comply with the condition of Active Treatment and an enforcement action was proposed. On December 29, 2006, the facility regained compliance by increasing their staff to client ration (two direct care staff per shift). Although the revised staff schedule was verified at the time of the investigation, this recertification survey revealed that the governing body failed to consistently ensure sufficient staffing to address client's behavior management needs and to ensure clients' safety as evidenced by the following: 1. During the recertification survey on January 24 , 2007, the surveyor arrived at the facility at 8:16 AM. Upon entering the facility, a direct care staff greeted the surveyor and stated "I'm glad you're here cause she is acting up." The surveyor asked the staff who she was referring to and the staff identified Client #3. When asked where was Client #3, the staff indicated that she was in her bedroom. The client's bedroom door was observed to be closed; however, she was overheard yelling and screaming in an unintelligible tone of voice. The direct care staff further indicated that the client said she was going to kill one of her peers [Client #4]. Observation and interview with the direct care	W 104	The present staffing schedule reflects that two direct care staff are on duty when all four of the residents are in the facility. However, in the future two staff will be required to remain on duty until all residents have left to go to the day program or until the relief reports for duty. Residential Manager will review schedule daily to ensure that two staff remain on duty at all times while all four clients are in the facility.	3/1/07

W 104	Continued From page 3 staff revealed that there was no other staff on duty. At 8:21 AM, the Residential Manager (RM) and the Qualified Mental Retardation Professional (QMRP) arrived to the facility. The direct staff informed the RM that Client #3 said she was going to kill (Client #4). At this time, Client #4 was observed to enter the dining room area and appeared as though she was about to cry. The QMRP asked the staff what was going on? The direct care staff indicated that the client was " cursing and fussing." The RM was observed to enter Client #3's bedroom and was overheard asking the client to calm down. 2. At approximately 8:25 AM the QMRP was interviewed and acknowledged that two staff were scheduled to work for each of the three shifts (12 midnight - 8:00 AM, 8:00 AM - 4:00 PM, and 4:00 PM - 12 midnight). The surveyor asked the RM if one of the midnight staff had been instructed to stay until the second person arrived to relieve them? The RM said they had not been instructed to do so. 3. At 8:30 AM, Client #3 beckoned the surveyor to come in her bedroom. Client #3 indicated that she told Client #4 .... "to get out my room, she was in my closet." Client repeated " I tell her get out my room." Interview with the RM at 8:36 AM, confirmed that Client #3 does not like her peers in her room. The RM indicated that Client #4 liked to go in Client #3's bedroom closet to mess with her shoes and that it was difficult to redirect and keep her from going in Client #3's bedroom.	W 104	The facility's Psychologist and Behavior Specialist will provide additional training to staff on how to manage conflict between Client #3 and Client #4.	3/2/07

W 104	Continued From page 4 B. Cross Refer to W124.1-2. The governing body failed the establishment and implementation of policies and procedures to ensure informed consents for the use of psychotropic medications. C. The governing body failed to ensure that the implementation of policies and procedure to ensure that all drugs administered had proper labeling as evidenced by the following: During the environmental walk-through on January 25, 2007 at approximately 1:17 PM revealed that Client #1's Dental 5000 PPM fluoride Prescription was observed at her bedside in a plastic storage container. Further observation revealed that the treatment medication was not labeled with the client's name, expiration date and treatment administration instructions. Review of the facility's policy for medication labeling on January 25, 2007 revealed that all resident medications, regardless of source, should be properly labeled as follows: a) The name of the drug; if generic, the manufacturer shall be indicated; b) The directions for use; c) The name of the resident; d) The name of the prescriber; e. The date dispensed; f). The name and address of the pharmacy; g) The prescription number; h) The strength and quantity; i) When appropriate, precautionary labels shall be added indicating storage conditions, handling procedures, etc. and j) Expiration dates of drugs.	W 104	B. Cross reference W124, 1-2. The Pharmacist will be requested to label all over the counter medication.	3/1/07 3/1/07

W 104	Continued From page 5 Further review of the policy revealed that the nurse receiving the drugs assumes responsibility for assuring that all items coming from the pharmacy are properly labeled.	W 104		
W 120	483.410(d)(3) SERVICES PROVIDED WITH OUTSIDE SOURCES The facility must assure that outside services meet the needs of each client. This STANDARD is not met as evidenced by: Based on observation, interview and record review, the facility failed to ensure outside services met the needs of one of the two clients included in the sample. (Client #1) The findings include: I. The facility failed to ensure that the day program met Client #1's needs due to her refusals to participate in active treatment programming as evidenced below: On January 23, 2007 at 1:37 PM, Client #1 was observed at her day program wearing her coat, hat, and gloves in the classroom. The day program staff reported the client had her coat on since her arrival approximately 10:00 AM that morning. The client was not observed to be engaged in any task. At 1:59 PM the day program staff assisted Client #1 to sit in a circle with her peers. According to the staff the clients sat in a circle to discuss things of interest to them. It should be noted that Client #1 was not observed to engage in the conversation, but was observed to repeat whatever was said. Throughout the observation the day program staff were observed requesting the client to take off	W 120	The QMRP and Behavior Specialist will visit Client #1's day program to make observation of her participation in her daily programming. A case conference will be requested with the day program staff and DDS Case Manager to determine if Client #1 can benefit from her present day program placement or if alternative programs can be explored.	3/1/07

W 120	Continued From page 6 her coat and hat, but she refused. Review of the client 's day program Behavior Support Plan (BSP)dated September 14, 2006 revealed whenever the client exhibits noncompliance in response to staff directives " staff should give her a verbal prompt to follow the directive e.g. Client's name, please do _____. If the client refuses to comply, staff should repeat the directive in a calm but firm tone of voice. If the client continues to ignore staff, they should allow two-three minutes to lapse and then should repeat the directive again. At the time of the survey, the day program staff were not observed to implement the BSP as written. Interview on the aforementioned date at 1:38 PM with the day program case manager revealed they had concerns regarding Client #1's noncompliance. According to the case manager, on some days the client refuses to come in the classroom. He indicated that they have requested a one to one staff for the safety of the client. The day program case manager further indicated that the client was not aggressive, however sometimes she wants to walk around in the building, and collect cardboard, "we don't have the staff for that." Review of the behavior data revealed that the client has been consistently non-compliant. Further review of the data revealed that from December 12, 2006 through January 9, 2007, Client #1 had displayed eighteen (18)incidents of the non-compliant behavior. An interview was conducted on January 24, 2007 with the group home Residential Manager (RM). According to the RM Client #1 was suspended	W 120

W 120	Continued From page 7 from the day program for approximately nineteen days due to her non-compliance. A case conference was held on October 12, 2006 to discuss the client's "non-compliance with daily routines, decrease in compliance with ADLs' (personal hygiene, and suspension due to refusal to engage in any programming). According to the Qualified Mental Retardation (QMRP) a request has been submitted for a one to one staff, however, due to the fact that the client does not exhibit aggressive behaviors, the QMRP indicated that she probably does not qualify for a one to one staff. The QMRP also indicated that once the facility receives the letter denying the one to one staff a referral will be made to another day program for the client. II. [Cross Refer to W391] Review of the Personnel Records on January 24, 2007 revealed a Pharmacist contract which indicated that the Pharmacist should conduct an inspection of medication storage rooms, if applicable. Additionally, the contract indicated that the audits would consist of appropriate labeling. At the time of the survey, the facility failed to ensure clients medication was labeled.	W 120	All medication will be labeled and storage reviewed by the Pharmacist quarterly.	3/1/07
W 124	483.420(a)(2) PROTECTION OF CLIENTS RIGHTS The facility must ensure the rights of all clients. Therefore the facility must inform each client, parent (if the client is a minor), or legal guardian, of the client's medical condition, developmental and behavioral status, attendant risks of treatment, and of the right to refuse treatment.	W 124

W 124	Continued From page 8 This STANDARD is not met as evidenced by: Based on observation, staff interview, and record review, the facility failed to establish a system that would ensure clients that were informed of their risks and benefits of their medication for two of the two clients in the sample. (Clients #1 and #2) The findings include: 1. Client #1 was observed during the evening medication pass on January 22, 2007 at 6:59 PM. The client was observed to receive Depakote 500 mg, Revia 50 mg, and Tegretol XRU-D 40 mg. Review of Client #1's physician's orders dated January, 2007, revealed that the client was also prescribed Aricept 10 mg. Interview with the Primary Care Nurse (PCN) and review of the Medication Administration Record (MAR) revealed that the client started this medication on September 28, 2006. Interview with the nursing staff on January 22, 2006 revealed Client #1 was prescribed the aforementioned medications for behavioral support. Interview with the Residential Manager (RM)on January 22, 2007 revealed that Client #1's sister is involved in her life, but that the client does not have a legal guardian. Further interview with the RM revealed that the sister had signed a consent for sedation however, at the time of the survey there was no documented evidence of an informed consent for the use of her psychotropic medications or the use of her corresponding BSP. Review of Client 1#'s, psychological assessment dated October 2, 2006, revealed that the client does not have the ability to make major decisions on her behalf regarding habilitation planning, placement, finances, treatment and medical	W 124	Consent forms for treatment will be obtained from DDS Case Managers. 3/1/07 The consent for Psychotropic Medications and use of BSP will be reviewed and signed by Client #1's sister. A telephone conference with Client #1's sister in California will request that she sign and return consent forms. 3/1/07

W 124	Continued From page 9 matters. There was no evidence to determine that the facility had established a system to ensure that legally sanctioned advocacy was made available for clients identified as incapable of comprehending their treatments and the risk and benefits associated. 2. Client #2 was observed during the evening medication pass on January 22, 2007 at 7:11PM. The client was observed to receive Depakote 250 mg and Seroquel 200 mg. Review of Client #2's physician's orders dated January, 2007, revealed that the client was also prescribed Seroquel 100 mg to be administered at 12 noon and 300 mg every evening. Further review of the order revealed that the client was also prescribed Prozac 20 mg. Interview with the nursing staff on January 22, 2006 revealed Client #2 was prescribed these medications for behavioral support. Interview with the Residential Manager (RM) and record verification revealed that Client #2 had a limited guardian, however, at the time of the survey there was no documented evidence of an informed consent for the use of her psychotropic medications or the use of her corresponding BSP. Review of Client #2's, psychological assessment revealed that the client does not have the ability to make major decisions on her behalf regarding habilitation planning, placement, finances, treatment and medical matters. There was no evidence to determine that the facility had established a system to ensure that legally sanctioned advocacy was made available for clients identified as incapable of comprehending their treatments and the risk and benefits associated.	W 124	A signed consent form for Client #2 will be obtained for the use of her psychotropic medications and BSP.	3/1/07

W 159	Continued From page 11 1. On January 23, 2007 at 1:37 PM Client #1 was observed at her day program wearing her coat, hat, and gloves in the classroom. The day program staff reported the client had her coat on since her arrival approximately 10:00 AM that morning. The client was not observed to be engaged in any task. At 1:59 PM the day program staff assisted Client #1 to sit in a circle with her peers. According to the staff the clients sat in a circle to discuss things of interest to them. It should noted that Client #1 was not observed to engage in the conversation, but was observed to repeat whatever was said. Throughout the observation the day program staff were observed requesting the client to take off her coat and hat off, but she refused. Interview with the client's day program case manager on January 23, 2007 at 1:38 PM revealed that they had concerns regarding Client #1's behavior of noncompliance. According to the case manager, on occasions the client would refuse to come in the classroom and would walk around in the building and collect cardboard. Although the case manager reported that the client was not aggressive, case manger indicated that the program did not have the available staff to provide supervision when the client was not in class. Although a behavior support plan was designed to address the client's non-complaint behaviors, the staff indicated that the plan was not effective as the data collection revealed from December 12, 2006 through January 9, 2007 eighteen (18) incidents of the behaviors. There was no evidence that this data and the day program's concerns were communicated to or addressed by the Interdisciplinary team or the psychotropic medication committee.	W 159	The BSP for Client #1 will be reviewed and revised. A case conference will be scheduled with IDT to review day program concerns for Client #1.	3/1/07

W 159	Continued From page 12 An interview with the group home Residential Manager (RM) on January 24, 2007 revealed that in September/October 2006, the client was suspended from her day program for approximately nineteen days due to behaviors of non-compliance. A case conference was held on October 12, 2006 to discuss the client's increase non-compliance with daily routines, lack of participation in day program activities, and decrease compliance with ADLs' (personal hygiene). Residential data collection at that time revealed an increase in the non-compliance from an average of 35 in July and August to 177 in September, 2006. In response to the increase in the behavior, the facility's psychiatric recommended that the client be assessed for dementia and/or begin a diagnostic therapeutic trial of Aricept 10 mg be added to his drug regime. The psychological assessment dated October 2, 2006 recommended that the client be assessed for possible dementia prior to making any changes in the client's psychotropic medications, including starting Aricept. Review of the social worker assessment also recommended that the client be assessed for dementia prior to the trial of Aricept. However, the Aricept was ordered, and initiated on September 28, 2006 without any evidence that the Interdisciplinary team recommendations were addressed or that the human rights committee had reviewed or approved its usage. Review of the data collection since the initiation of the Aricept, the client has not been assessed for dementia. Although the client's behavior of non-compliance at the residence decreased to 41 incidents in November (2006), the behavior increase to 98 incidents in December (2006). It	W 159

W 186	Continued From page 14 Direct care staff are defined as the present on-duty staff calculated over all shifts in a 24-hour period for each defined residential living unit. This STANDARD is not met as evidenced by: Based on observation, staff interviews, and review of staffing schedule, the facility failed to ensure that sufficient direct care staff to manage and supervise clients in accordance with their individual program plans were available. The finding includes: 1. The facility failed to provide adequate client to staff ratio to ensure supervision to address the behavioral management needs of Client #1. [Cross refer to W104.1] During the survey on January 24, 2007, the surveyor arrived at the facility at 8:16 AM. Upon entering the facility, a direct care staff greeted the surveyor and stated " I'm glad you're here cause she is acting up." The surveyor asked the staff who she was referring to and the staff identified Client #3. When asked where was Client #3, the staff indicated that she was in her bedroom. The client's bedroom door was observed to be closed; however, she was overheard yelling and screaming in an unintelligible tone of voice. The direct care staff further indicated that the client said she was going to kill one of her peers [Client #4]. Observation and interview with the direct care staff revealed that there was no other staff on duty. At 8:21 AM, the Residential Manager (RM) and the Qualified Mental Retardation Professional (QMRP) arrived to the facility. The direct staff	W 186	cross reference W104.	3/1/07

W 186	Continued From page 15 informed the RM that Client #3 said she was going to kill (Client #4). At this time, Client #4 was observed to enter the dining room area and appeared as though she was about to cry. The QMRP asked the staff what was going on? The direct care staff indicated that the client was " cursing and fussing". The RM was observed to enter Client #3's bedroom and was overheard asking the client to calm down. At approximately 8:25 AM the QMRP was interviewed and acknowledged that two staff were scheduled to work for each of the three shifts (12 midnight - 8:00 AM, 8:00 AM - 4:00 PM, and 4:00 PM - 12 midnight). The surveyor asked the RM if one of the midnight staff had been instructed to stay until the second person arrived to relieve them? The RM said they had not been instructed to do so. At 8:30 AM, Client #3 beckoned the surveyor to come in her bedroom. Client #3 indicated that she told Client #4 .... "to get out my room, she was in my closet." Client repeated " I tell her get out my room." Interview with the RM at 8:36 AM, confirmed that Client #3 does not like her peers in her room. The RM indicated that Client #4 liked to go in Client #3's bedroom closet to mess with her shoes and that it was difficult to redirect and keep her from going in Client #3's bedroom. Interview with the direct care staff and record verification revealed Client #3 has a Behavior Support Plan (BSP) to address verbal abuse and physical aggression. Review of the plan revealed that when the client begins to display agitated or verbally abusive behavior, a staff	W 186

W 186	Continued From page 16 member will discuss with her the reason for her agitation. Additionally, the plan recommended to use a safety zone when the client does not respond to verbal instructions. Although the client was in her bedroom, she continued to talk loudly in an agitated tone. The direct care staff on duty was not observed to intervene by implementing the behavioral strategies as recommended in her BSP, because she was trying to attend to the other housemates. 2. On January 23, 2007 at 1:37 PM Client #1 was observed at her day program wearing her coat, hat, and gloves in the classroom. The day program staff reported the client had her coat on since her arrival approximately 10:00 AM that morning. The client was not observed to be engaged in any task. At 1:59 PM the day program staff assisted Client #1 to sit in a circle with her peers. According to the staff the clients sat in a circle to discuss things of interest to them. It should noted that Client #1 was not observed to engage in the conversation, but was observed to repeat whatever was said. Throughout the observation the day program staff were observed requesting the client to take off her coat and hat off, but she refused. Interview with the client's day program case manager on January 23, 2007 at 1:38 PM revealed that they had concerns regarding Client #1's behavior of noncompliance. According to the case manager, on occasions the client would refuse to come in the classroom and would walk around in the building and collect cardboard. Although the case manager reported that the client was not aggressive, case manger indicated that the program did not have the available staff to provide supervision when the client was not in	W 186

W 186	Continued From page 17 class. Although a behavior support plan was designed to address the client's non-complaint behaviors, the staff indicated that the plan was not effective as the data collection revealed from December 12, 2006 through January 9, 2007 eighteen (18) incidents of the behaviors. There was no evidence that this data and the day program's concerns were communicated to or addressed by the Interdisciplinary team or the psychotropic medication committee. An interview with the group home Residential Manager (RM) on January 24, 2007 revealed that in September/October 2006, the client was suspended from her day program for approximately nineteen days due to behaviors of non-compliance. A case conference was held on October 12, 2006 to discuss the client's increase non-compliance with daily routines, lack of participation in day program activities, and decrease compliance with ADLs' (personal hygiene). Residential data collection at that time revealed an increase in the non-compliance from an average of 35 in July and August to 177 in September, 2006. In response to the increase in the behavior, the facility's psychiatric recommended that the client be assessed for dementia and/or begin a diagnostic therapeutic trial of Aricept 10 mg be added to his drug regime. The psychological assessment dated October 2, 2006 recommended that the client be assessed for possible dementia prior to making any changes in the client's psychotropic medications, including starting Aricept. Review of the social worker assessment also recommended that the client be assessed for dementia prior to the trial of Aricept. However, the Aricept was ordered, and initiated	W 186

W 247	Continued From page 27 This STANDARD is not met as evidenced by: Based on observation, staff interview, and record review, the facility failed to allow clients the opportunity to exercise their right to choice and self management for two of the two clients included in the sample. (Clients #1 and #2) The findings include: 1. Observation on January 23, 2007 revealed Client #2 arriving home from her day treatment program at 3:12 PM. The direct care staff provided a sugar free vanilla pudding for the client's snack. She was observed to sit at the dinning room table to eat her pudding. There was no evidence that the staff offered the client a choice of snack. At the time of the survey, the facility failed to ensure the client 's right to select a snack of her choice had been exercised. 2. Interview with the Residential Manager (RM)on January 24, 2007 at 3:50 PM revealed that Client #2 had an objective to prepare and snack. Record verification revealed that the client had an objective to prepare a simple snack with a peer and serve prior to the structured group home activity twice per week with minimal physical assistance. At the time of the survey, the facility failed to ensure that Client #2 had the opportunity to participate in preparing a snack for one of her peers. 3. Observation on January 24, 2007 revealed Clients #1 and #2 arriving home from their day treatment programs at 2:30 PM. The direct care staff provided the clients with a snack-sized box of raisins. There was no evidence that the staff offered the client a choice of snack. At the time	W 247	1. Client #2 will be given the opportunity to select a snack from several choices. 2. Client #2 will be given the opportunity to prepare a snack for her peers as stated in her objective. 3. During snack time residents will be given an opportunity to select a snack.	3/1/07 3/1/07 3/1/07

W 247	Continued From page 28 of the survey, the facility failed to ensure the client's right to select a snack of her choice had been exercised.	W 247		
W 250	483.440(d)(2) PROGRAM IMPLEMENTATION The facility must develop an active treatment schedule that outlines the current active treatment program and that is readily available for review by relevant staff. This STANDARD is not met as evidenced by: Based on interview and record review, the facility failed to develop an active treatment schedule that outlined the current active treatment programs, for one of the two clients included in the sample. (Client #1) Interview with the RM on January 23, 2007 at 2:46 PM revealed that Client #1 did not have an alternative schedule when suspended from the day program. According to the RM, Client #1 was suspended from her day program for non-compliance. Further interview with RM revealed the client was absent from the day program for approximately 19 days. At the time of the survey, the client had returned to her day program. The QMRP was asked if the client had an alternative schedule during the time she was at home. Interview with the Qualified Mental Retardation Professional (QMRP) on January 23, 2007 revealed that she was assigned to the facility approximately two weeks ago and she did not know if she had an alternative schedule at that time.	W 250	An active treatment schedule will be developed and implemented for any client that is not attending a day program.	3/1/07

W 322	Continued From page 32 facility's psychiatrist recommended that the client be assessed for dementia and/or begin a diagnostic therapeutic trial of Aricept 10 mg to be added to her drug regime. The psychological assessment dated October 2, 2006 recommended that the client be assessed for possible dementia prior to making any changes in the client's psychotropic medications, including starting Aricept. Review of the social worker assessment dated October 1, 2006 also recommended that the client be assessed for dementia prior to the trial of Aricept. However, the Aricept was ordered, and initiated on September 28, 2006 without any evidence that the Interdisciplinary team recommendations were addressed or that the human rights committee had reviewed or approved its usage. Review of the data collection since the initiation of the Aricept, revealed that the client had not been assessed for dementia. Although the client's behavior of non-compliance at the residence decreased to 41 incidents in November (2006), this behavior increase to 98 incidents in December (2006). It should be noted that in addition to the increase in behaviors of non-compliance, also in December (2006) the client demonstrated an increase in skin picking, and pica (from zero to 60 incidents of eating feces).	W 322		
W 331	483.460(c) NURSING SERVICES The facility must provide clients with nursing services in accordance with their needs. This STANDARD is not met as evidenced by: Based on staff interview and record review the facility failed to ensure nursing services in accordance with the needs of one of two clients	W 331
